Ruyschaert
Language Academy

**Groundbreaking
language courses
English, French
and Dutch**

"You have to experience Ruyschaert to understand what makes this school so unique. I am very proud of what I have achieved."

Immersion, as the key to success

At Ruyschaert we believe that a language is something that has to be learned. And the best way to do this is **to get inside the language by total immersion.**

That's way, everybody, teachers AND students, speak the target language **everywhere and at all times:** during courses, meals or games – and do so throughout the entire week.

We recognise that this requires determination and discipline. **But the result is truly impressive!**

Grammar is the hidden code to crack

Ruyschaert makes grammar cool. It is the hidden code upon which language is built. Abstract? Yes. But incessantly interesting as soon as you've cracked it. You will gain in confidence, have more fun and feel more secure.

Varied lessons stimulate young people for more

You will spend a whole week on a rollercoaster of exciting insights into language, instructive exercises and challenging role-plays.

Qualified language virtuoso as teacher

You will get to know experienced professionals: language virtuosos who spend their daily lives in the classroom.

Atmosphere of warmth, respect and kindness

Language should bind us together. It's precisely for this reason that there's a feeling of warmth and security at every campus.

Wide range of sport and games

Sport and games are crucial for relaxation. What's more: they open the door to expressing yourself naturally in a foreign language. So enjoy a good dose of amusement together with your teachers.

"During sport and playtime we don't even think about language anymore. We just have fun!"
